## CORE COMPETENCIES

## SECURITY OPERATIONS

Vulnerability Management	●●●●●●●●●●
Identity & Access Mgmt	●●●●●●●●●●
Incident & Change Mgmt	●●●●●●●●●●
SIEM & Log Analysis	●●●●●●●●●●

## AI &amp; EMERGING TECH

Prompt Engineering	●●●●●●●●●●
AI Risk & Governance	●●●●●●●●●●
LLM Security / OWASP LLM	●●●●●●●●●●
AI-Assisted Development	●●●●●●●●●●

## FOCUS AREAS

AI / LLM Security	Cloud Security	
DevSecOps	Product Security	Data Protection

## CERTIFICATIONS

- ISO 27001:2022  
Lead Auditor | ISMS
- ISO 27701:2019  
Lead Auditor | Privacy
- ISO 22301:2019  
Lead Auditor | BCM

## TOOLS &amp; PLATFORMS

## VULNERABILITY &amp; SIEM

Qualys, Nessus, Microsoft Sentinel

## GRC &amp; RISK

ServiceNow GRC, OneTrust

## CLOUD &amp; INFRASTRUCTURE

AWS, Microsoft Azure, Active Directory

## AI &amp; STANDARDS

ISO 42001, OWASP LLM Top 10, MITRE ATT&amp;CK, NIST AI RMF

## PERSONAL STATEMENT

Cybersecurity professional with 4 years at KPMG combining governance depth with hands-on security assessment. Led 15+ engagements spanning ISMS certification, application security reviews, vendor risk programs, and compliance validation across BFSI, real estate, and e-commerce. Three ISO Lead Auditor certifications.

Brings structured risk thinking to technical security problems: evaluating code, reviewing SIEM and vulnerability scan outputs, and translating findings into remediation that engineering teams adopt. Focused on AI systems security and emerging threat landscapes.

## WORK EXPERIENCE

K July 2022 | Present

## Assistant Manager, Cybersecurity

KPMG, Bangalore

- Led **15+ security engagements** across BFSI, real estate, and e-commerce, from gap analysis through certification, with **zero-defect audit outcomes** on ISO 27001 and ISO 22301 programs
- Conducted application security assessments: reviewed source code, analyzed vulnerability scan outputs (Qualys, Nessus, Snyk), and evaluated SIEM dashboards to identify architectural gaps and drive remediation
- Built vendor risk programs covering **50+ vendor ecosystems**, designing risk-based tiering and continuous monitoring workflows that standardized third-party assessment
- Delivered end-to-end compliance reviews against NIST CSF, OWASP Top 10, and PCI DSS: gap analysis through remediation roadmaps adopted by client security and engineering teams
- Managed CISO and C-suite stakeholder reporting across engagements, translating technical risk findings into security investment priorities

M May 2021 | September 2021

## Risk Intelligence Analyst

Mikat Advisory

- Produced **20+ geopolitical risk reports** on South Asian markets, synthesizing multi-source intelligence for client investment and continuity decisions
- Delivered weekly intelligence briefings to senior leadership on COVID-19 impacts, political instability, and supply chain risk scenarios

## KEY ENGAGEMENTS

## Cyber Transformation Program

Conducted enterprise-wide gap assessment, designed a three-phased cybersecurity enhancement plan, and led implementation of remediation measures across policy, technology, and operations, measurably improving the organization's security posture.

GAP ASSESSMENT · REMEDIATION · SECURITY UPLIFT

## ISMS Certification, BFSI

Led ISO 27001 readiness for a financial services firm. Gap analysis, control design, evidence collection through zero-defect external audit.

ISO 27001 · NIST CSF

## Security Posture Review, E-commerce

Assessed application and infrastructure security across web and mobile platforms. Reviewed code, evaluated OWASP Top 10 coverage, delivered remediation roadmap.

OWASP · VULNERABILITY ASSESSMENT
